

# Prince Rupert, Canada to US Border

One of shorter legs yet probably one of the best for the road lovers this is going to give the still camera a real work out.

Starting where we left off in Prince Rupert we head back out to Ksan Village which is a re-creation of an 1870 native Gitxsan settlement.

From here down highway 16 to the bustling city of Prince George, Jasper National Park and Jasper.

After Jasper we wind our way along one of the most picturesque roads past places like Peyto Lake, Valley of the Ten Peaks, Lake Louise, Johnston Canyon and Banff National Park before arriving in Banff.

Only a short distance away and home of the famous Stampede, Calgary is sure too impress. Not far south and we reach the US border.
